Aspiring AI & Data Science Engineer with a strong foundation in Python Full Stack Development, PHP Framework (CodeIgniter), SQL, Power BI, and UI/UX Design. Passionate about leveraging artificial intelligence, data-driven solutions, and intuitive user experiences to solve real-world challenges. Seeking opportunities to apply my skills in AI, data science, software development, and user-centric design.

EDUCATION

Sri Shanmugha College of Engineering and Technology
B.Tech AI and Data Science

2021-2025
GPA: 8.2/10

PROJECT

Empowering Farmers Through Technology: Enhancing Market Access and Fair Pricing

- Developed AgroTech Nexus, a digital platform connecting farmers with local markets.
- Implemented real-time price monitoring, AI-powered insights, and supply chain optimization.
- Designed responsive, user-friendly web pages with a focus on intuitive UI/UX.

INTERNSHIP & TRAINING

Python FullStack Development - Training Program

July 2014 - Feb 2025

- Gained hands-on experience in Python, SQL, HTML, CSS.
- Worked on database management, scripting, and debugging.
- Built real-world projects to enhance problem-solving and coding skills.

VB.Net Framework

July 2023 - Aug 2023

I have completed an 30 days internship at browzone infotech, developed student marksheet, hotel management system, and interest calculator using Visual Basic 6.0.

SKILLS

Technical Skills

- Python
- Java Script
- UI&UX Design
- HTML
- React
- MS Excel
- CSS
- SQL

Tools

- Visual Studio
- Figma
- SQL plus
- Flutter Frame Work
- Canva

CERTIFICATION

- The Full STack Web Development- Udemy
- MS Excel - PreplInsta
- Developing App With Flutter-Udemy
- Python FullStack - Qspider
